Replacement Cattle Rallied Last Week As Fats Improved

Kansas City, April 14, (USDA) — National Feeder Cattle and Calf Summary approximately 232,800 this week; 252,000 last week; 225,000 last year. Feeder Cattle and Calf prices rebounded firm to 3.00 higher, recovering much of last week's decline. The rise in slaughter cattle prices gave new impetus to feeder buyers, and while thin under 600 lbs. suitable to graze where eagerly sought, there was keen competition for fleshy Steers over 700 lb. and fleshy Heifers over 600 lb. particularly medium and large framed offerings. California broke through the 70.00 Calf barrier, reporting 3 weights up to 75.00.

Harrell Beefmaster "Gallery Sale"

Record prices and cattle photos were the main topics at Harrell Cattle Company's "Gallery of Champions" Sale in Gonzales, Texas, March 20.

An enthusiastic crowd of over 100 showed optimism for the cattle market by paying record prices for the purebred Beefmaster cattle offered in the sale. The buyers, from 16 states and one university, received an original portrait of each lot they purchased. Well-known western artist, D.O. Smith, did the portraits to commemorate the sale.

The 67 lots plus a half interest in a yearling bull totaled \$180,200 for a record average of \$2,670 per lot. The sale set two records in the Beefmaster breed for all sales.

The Harrell sale saw 20 breeding age bulls average \$2,611, the Texas Agricultural Experiment Station in College Station being an outstanding bull for \$5,300. Two yearling bulls and the one-half interest in a Show-bred bull averaged \$5,680 with Harrell Cattle Company retaining a half interest. An average for the yearling bulls is a record in the breed. The average were: 27 pairs averaging \$2,801, eight bred heifers — \$2,082, and 10 open heifers — \$2,165.

Volume buyers at the Harrell sale were Huebner Properties, RMB Farms, Quarenta Ranch, Ruthven Farms, Madero Land and Cattle Company, and Barbon Beefmaster.

College of Santa Gertrudis Knowledge, Sale at Tulsa

Final preparations are now underway for the first annual College of Santa Gertrudis Knowledge Sale at Tulsa, Okla., on May 11. To be held at the Tulsa County Fairgrounds, the one-day school will precede the first annual Spring Opportunity Sale on May 12.

Sponsors of both the school and sale are Buddy Smith's Santa Services, Cosgrove Ranches, Doug Fain's Santa Gertrudis Ranches, Bart Dedmon's Oak Valley Ranch, and Joe Marchman Ranches.

Headquarters will be the Tulsa Airport Holiday Inn. The school will begin at 9 a.m., and lunch will be served on the Green Country Cow Palace grounds from 12 noon until 1:30 p.m. A happy hour beginning at 4:30 p.m. is scheduled after the afternoon classes. The school can accommodate approximately 400 persons. The sale, to be held at the same facility, will begin at 11 a.m. the

following day. Show your sale receipts to your neighbors. The extra weight that Santa cows and bulls have over the other breeds will make a believer out of them. See you down the road. Have to grab my hat and head for Missouri and Tennessee.

Harold Young of Winrock Farms in Morrilton, Ark. and I just completed a selection trip for the upcoming Premier Santa Gertrudis Association's Spring Sale to be held on Mt. Petit Jean May 20th. We covered an area from New Mexico, Colorado, Oklahoma, Arkansas, Ala., and most of Texas. One thing that was apparent was the need for breeders to prepare their cattle well in advance of sale. It takes time to condition cattle, especially when they have come through a winter like the one we just had. Basically, the cattle we selected were from breeders that had selected quality cattle well in advance of the screening. These progressive breeders had their branding, dehorning, fertility checks, etc., taken care of well in advance of our arrival. Not to mention the fact that they had provided a nutrition level adequate for the respective animals to express themselves.

My experience in the cattle business has been that you cannot starve a profit out of the animals. In order to merchandise a product you must make an eye appealing product to the buyer. This takes planning. A consignor to the various sales that are developing around the country needs to take these factors into consideration and prepare for them. Make sure that you select the proper quality before you start the sale with more cattle than you plan to sell in the event something happens to them. Plan for proper calving dates and then develop them.

Say, the response to the College of Santa Gertrudis Knowledge in Tulsa, Oklahoma on May 11th & 12th has been far above our expectations. We have been receiving reservations daily. The faculty for this event represents many years of Santa Gertrudis knowledge and experience. A top flight program is being planned for those in attendance, not to mention the quality of cattle that are going to be used for demonstration purposes and those that are selling in the Spring Opportunity Sale May 12th. The sale consists of show prospects, herd sires, three in one packages, and cattle that will work in the best of herds.

Recently, S.G.B.I. completed a school for qualifying new show judges. The turnout at Mercedes, TX was good. Over 80 judges were approved. Among these were a lot of commercial cattle men, purebred breeders from other breeds, county agents, and university men from all over the country. This gives us qualified cattle men to select our cattle at the shows that should be unbiased in their selection. From the looks of things, these extra judges will be needed due to the large number of Santa that will be on the show road, plus the new S.G.B.I. approved shows, Brenham, Tyler, and Victoria.

1978's Biggest Santa Gertrudis Junior Show Set at Waco

Kingsville — The 1978 National Santa Gertrudis Junior Heifer Show will be held in Waco at the Heart of Texas Fair, June 28-July 1. With an overall goal of \$10,000 in premiums, the show will be the biggest Santa Gertrudis youth event of the year.

There will be ten show classes in addition to Calf Champion and Reserve, Yearling Champion and Reserve, Reserve Grand Champion Female, and Grand Champion Junior Female. A minimum of \$500 in premiums per class has been established with added money for each of the Champions.

Activities include a Santa Gertrudis Fitting School with instruction from professionals on feeding, grooming, handling, and showing Santa Gertrudis.

Results Confirm the Value of Santa Gertrudis Crossbreeding, Management

Clyde M. Triplett, Georgia Extension Animal Scientist, when the calves on first-calf heifers are bigger and better than calves of the same age on mature cows in the same herd, you are making progress in your cattle program. This is one of the things a farmer in south central Georgia has been able to accomplish as a result of a crossbreeding and improved management program.

ment program. About four years ago, this cattleman asked the County Agent for help with his cattle operation. The County Agent, in turn, asked me to assist him in developing a program for this man. He had about 200 brood cows which were all grade Herefords and he was selling his calves at weaning. Besides the fact that his cattle operation were not making him any money, he was concerned about some other problems which he noticed. His calves weaning weights were very light and many of them cost him a lot of money to raise. The fact was tremendous variation in size of the calves.

MOTHERING ABILITY!

Try taking a long, hard look at Santa Gertrudis. Chances are you'll like what you see — What a pair! Because Santa Gertrudis were developed to be more profitable. Characteristics like easy calving, superior milk production, heavy weaning and yearling weights, gainability, carcass acceptability, longevity, and fertility all contribute to this end. Cattlemen are finding out that Santa Gertrudis are performing in all types of climates and environments under various management practices. In purebred, crossbred and purely commercial operations. And that's the kind of performance it takes.

One observer reminds public servants that any of the rights and privileges that they deprive others of today, may be lost forever to their own children and grandchildren.

The cattleman was on a year-round calving program and one of his major problem areas was winter feeding. He was using hay as the base of his winter feeding program. He was not on a performance testing or culling program. After studying the producer's situation, we made a number of recommendations. Let me point out that these recommendations were made for his particular farm and would not necessarily be appropriate for all producers. However, some of them were the type of practices which would be right for any operation. The four major points in our recommendations were:

- (1) Follow a crossbreeding program. A three-breed rotational cross, using the basic brood cow herd was Hereford, Santa Gertrudis and Angus. We recommended the use of Santa Gertrudis bulls. It has been our observation that cows with a percentage of Brahman blood do very well in the lower coastal plains area. We recommended that the third breed in the program be Angus. This would mean that the producer would need cattle pastures during the breeding season and would be using three breeds of bulls — Hereford, Santa Gertrudis, and Angus.
- (2) Get on a controlled breeding program and use general improved management practices.
- (a) He chose a January, February, March calving program which meant removing the bulls by July 1.
- (b) The program included pregnancy testing and culling cows on the basis of pregnancy and also on the basis of performance.
- (c) All cows were identified and calves were identified at birth.
- (3) Switch feeding programs to silage and winter animals for silage feeding.
- (a) This involved an investment in silage harvesting equipment and storage facilities. A 1000 ton trench with concrete bottom and sides was constructed.
- (4) Background and finish calves at the farm.
- (a) Selling calves at weaning was not returning enough income to pay the costs of production.
- (b) With silage production and overwintering plus overfeeding of winter animals, the producer had enough forage to background all his calves on the farm.
- (c) His grain production capacity was great enough to feed the calves out to slaughter weight.

After 8 1/2 years on the program, the farmer has made some observations concerning his program. Because of the prices since 1973, he hasn't been able to show a big profit, even with the improved performance he has obtained. However, he has observed some things which should have some benefits over the long range:

- (1) The first cross calves which were produced the first year he started the crossbreeding program weighed the straightbred by over 25 percent.
- (2) There were fewer "run" calves among the crossbreds. He observed less death loss at calving time among the crossbred and there was less indication of parasite infestation. As a result, a greater percentage of the calves were weaned from the crossbreds than the straightbreds.
- (3) No calving difficulties were observed using this particular crossbreeding program.
- (4) Three-way cross calves are just now on the ground. They are sired by Angus bulls and out of Hereford x Santa Gertrudis cross cows. These three-way cross calves, out of first-calf heifers, are considerably bigger and more uniform than straight Hereford calves nursing mature cows in a pasture just across the fence from the crossbreds. You would normally think that crossbreeding would produce more variation; however, this farmer believes that the extra vigor of the crossbreds more than compensates for the genetic variation that might be found from crossbreeding.

The results and benefits from the program are so obvious that the farmer is convinced the program will work. Prices will only cooperate, he feels, to make a profit in this kind of program.

next day.

Concept of the Santa Gertrudis College of Knowledge is to provide an accelerated course where breeders can come and learn the facts and knowledge necessary for a profitable operation. A group of experts has been slated to conduct the school, and each will instruct in his or her particular area of expertise. Areas to be discussed will include production, management, fitting and merchandizing.

Production and Selection, utilizing live cattle for demonstration purposes, will be taught by Buddy Smith, Keith Cosgrove, Travis Cosgrove, Bob Wasson, Dusty Rich, Jim Theek, Mac Woods, Bill Dawson, Duh Kirkpatrick, and Diane Sentell.

Production Records & Their Importance will be conducted by Buddy Smith, Jim Theek and Dale Elrod.

Advertising & Merchandizing will be discussed by Joe Marchman, Win Rockefeller, Col. J. T. Flagg, Gerald

operation in the future. To me, there were some other factors which contributed to the progress that he has made. His operation was large enough to make a three-way rotational crossbreeding program practical. He was also able to go into a silage feeding program which helped eliminate winter feeding risks. However, the major fac-

dent, and L. E. (Sonny) Nance, secretary. New directors include Jack W. Ferrell, senior vice president of First National Bank; W. Elroy Howard of R. E. Cox & Co.; Edward R. Hudson Jr., ranching and oil interests; Katherine Buck McDermott, ranching; Joe K. Matthews, Tarrant Beer Distributing Co.; Phillip J. Meek, executive vice president-general manager of Fort Worth Star-Telegram; Anne Windofsky Phillips of Frisco, ranching; W. A. (Mickey) Schmid III, ranching; Clyde H. Wells, Granbury, ranching; and Glen D. Woodson Jr., Coca Cola Bottling Co. of Fort Worth.

For contributing to the success of this operation was the fact that this producer was willing to follow advice and to stick with a long-range program. Changes and improvements come slowly in a cattle breeding and management operation. Without long-range planning and following through, it is difficult to make progress in a cattle operation.

Wall reported livestock entries hit the record of 14,500 head coming from 43 states and five foreign countries; grounds attendance of 810,000; and paid rodeo attendance of 125,508, a record aided by two added performances in 1978. He said gross revenue for the first time exceeded \$1 million, totaling \$1,004,238.86. Expenses totaled \$665,853.38, leaving a net of \$438,385.48, but most of the net was from reserves so actual profit for 1978 was approximately \$47,000.

Windy Ryon Memorial Roping June 3 & 4

(CONT. FROM PAGE 1)

Featured on Saturday will be a \$2,500 matched roping — winter take all — between Phil Lyne and Gary Ledford. Texas-style barbecue and refreshments will be available on the grounds.

Staged in the memory of Don J. "Windy" Ryon, the roping has raised over \$30,000 for the American Heart Association over the past four years. Ryon was well known in rodeo circles and in the western retailing industry. He died of a heart attack in 1978.

NEWS about LIMOUSIN

Around The Limo Loop

By KEN HOLLOWAY and BRUCE BROOKS

Another busy and exciting month in the Limousin breed. The upsurge in the cow market coupled with the thought that the grass might really get green again has given most all cattlemen a refreshing new outlook. Cowmen are coming to the realization that a herd bull must add increased performance to his calf crop—therefore, he's looking for a "Limmy" bull. Also, after such a miserable winter in our country, cowmen are searching for good replacement females. All this combined into one boiling pot makes things look like one exciting spring season.

To kick things off right, Wiggins Ranch Co. recently had a "Two-Day Limo-Sale" at Chattanooga, Okla. The first day saw 83 bulls sell for an average of \$1893. The second leg of this exciting weekend saw 189 females sell with a two-day total of \$408,970, for an average of \$1820. The WRC Sale offering sold to 102 buyers from 13 states and Venezuela. Four days later in Timberlake, S.C. an offering of 61 bulls and 34 heifers at the Pete Carmichael's Lookout Lim-

ousin sales and hope you plan to be with us. April 22, is the date for the Washita Cattle Co., and McKown & Sons Joint Percentage Limousin Dispersal. This offering will include approximately 75 halfblood cows with fall 3/4 calves at side. Many of these females are black with black calves at side. . . . an excellent offering of club calf prospects as well as a very useful group of replacement females.

Also upcoming will be the TEXS Limousin Ranch Sale, May 18, at the ranch, New Braunfels, Tx. As always, Floyd McGown and Allen Arfsten have assembled an offering of high percentage Limousin cattle to please the most discriminating cowman. Included in the offering will be an outstanding black 16/16 son of Elclair that certainly deserves your attention. Also selling will be a top offering of 76% and 87% females as well as 87% bulls.

The following day, May 14, J.V. Hutchison, Dill, Tx., will present a very useful group of open 87% females, bred 3/4, 7/8 spring pairs, percentage bulls and a great group of

New Braunfels, Texas — Floyd and Polly McGown have set the Texs Limousin Sale for May 13, 1978. Sale time is 1:00 p.m. at the ranch at New Braunfels.

Selling will be 100 lots of Texs Star and Texs Langer Limousin cattle including 22 head of Black Limousin cattle. The sale offering is made up of 4 purebred (93%) heifers, yearling, 2 black and 2 red; 6 purebred (87%) cows, bred, 5 black and 1 RBF; 29 purebred (87%) 18 month old open heifers, 5 black and 24 red; 7 purebred (87%) open yearling heifers, all red; 29 three-quarter bred cows with calves, 5 black, 5 RBF and 19 red, and 8 three-quarter bred cows, all red.

Bulls selling include 1 purebred (93%) black yearling bull; 1 (87%) black yearling bull, and 15-87% bulls, 18 months old, 8 black and 12 red.

For information contact Texs Limousin, Floyd and Polly McGown, 636 GPM North Tower, San Antonio, Texas 78216, 512/344-9711, Allen Arfsten, Manager, 612/625-7045 or 612/625-2952.

We hope you will make plans to attend one or all of these sales. A large variety of percentages, as well as purebloods will be represented and all are quality cattle representative of the respective breeders.

The time is right. . . the market trend continues to rise and it is time for us, as breeders, to re-evaluate our program and do some serious culling of older or less productive females, and restock with cattle bred to perform. Check the sale date calendar for the sales in your area, call your neighbor, and the both of you plan to attend. . . you'll be glad you did!

the ranch near Pineville beginning at 1 p.m., Sunday, April 23.

The offering is 65 head of very useful percentage Limousin bulls ranging in age from yearlings to two years old and from halfblood to seven-eighths Limousin including a few good black bulls. The stout, young bulls are sired by Rousseau, Longfellow, Burton, Janson, Gendarme and Circle Joker, and are indicative of the sound breeding program practiced at O'Brien Farms, for years an excellent source of percentage Limousin bulls for the cowman concerned with improving the performance of his herd.

C. K. "Sonny" Booth, Miami, Okla., will be the auctioneer. Lunch will be available sale day.

Information is available from O'Brien Farms, Box 734, Pineville, Mo. 64856, phones 417/223-4841 or 417/438-2548 at home; Jerry Douglas, manager, Noel, Mo. 64856, phone 417/438-2551; or American Cattle Services, Inc., Route 2, Chattanooga, Oklahoma, 73528, phone Ken Holloway, 405/637-2419, or Bruce Brooks, 405/226-1715.

Hereford Steer Show Set For 1978 American Royal

The American Hereford Association (AHA) and the American Polled Hereford Association (APHA) announce the establishment of a terminal purebred junior Hereford steer show for the 1978 American Royal Livestock Show.

Open to Hereford and Polled Hereford steers owned by junior exhibitors, the show will feature total steer evaluation combining on-hoof and carcass appraisal. Co-sponsored by the AHA, APHA and the American Royal, some \$4,000 in premiums will be paid to youth participating in this show.

Steers eligible for the show must be sired by a registered Hereford or Polled Hereford bull and be out of a straight-bred Hereford or Polled Hereford cow. Exhibitors will be asked to verify the parentage of their steers and provide production information such as animal's birth date and breeder to the association for more information and certification forms.

Classes will be established by age, with calves dropped March 1, 1977, and after being eligible for this event.

Following class placings, the evaluation will continue as they will be slaughtered with carcass information then being collected to determine their final standing. The overall champions and other final rankings will be determined 40% on hoof and 60% on carcass. Premiums will be paid for both categories. The show is designed to represent today's industry needs. Therefore, to qualify for carcass premiums, steers will meet minimum standards for growth and quality and yield grade.

Many water tragedies occur each year by inexperienced canoeists taking water that is too dangerous for beginning canoeing.

Texas Brangus Breeders Association News

By LAUREN MAYHEW

Ludwig and Judy Brand hosted their 3rd annual "Sale of Stars" at Round Top, Texas on April 8, 1978. Ludwig welcomed all and introduced many out of state guests. The Mayor of Round Top was on hand to express his gratitude for increasing the population of Round Top from 94 to approximately 450 for at least one day. The cattle were inspected on Friday evening and Saturday morning prior to the sale. Guests were served morning brunch, a luncheon of Bar-B-Que with all the trimmings, and after the sales drinks and snacks. Throughout the day the guests were entertained by Jim Gough and Cosmopolitan Country, a delightful Country-Western group. For additional details on this great sale see the report on other page in this section. Brangus Days in the Hill Country are being planned on the same order as last year with minor additions. Activities are planned as follows: Thursday, June 1: Beginning at 12:30 p.m., the TBBA Summer meeting will be held at the Sunday House in Kerrville; IBBA Inspection Seminar, Fairgrounds in Fredericksburg; P&F Cattle Company's annual Calf Fry Party at the Louise Hays Park in Kerrville.

Friday June 2 — 8:00 a.m. — The IBBA Open Futurity will get underway at the Fairgrounds in Fredericksburg. The Jr. Futurity to follow immediately. The Miss America Cocktail Party, Miss America Sale and Western Art Sale will be held at the River Hill Country Club. Activities on Friday night. Details will be furnished later. The TBBA Summer Party will begin at 8:00 p.m. after the sales. Tickets for the event will be \$25.00 per person. This year we will be entertained in the form of a luncheon.

Saturday, June 3: The day begins at 7:00 a.m. with a Jr. IBBA breakfast meeting at the Sunday House in Kerrville. At 7:30 a.m. the IBBA Board of Directors will have a breakfast meeting at the INN of the Hills. Champagne Brunch will be served at 10:30 a.m. at the River Hill Country Club prior to the Top of the Crop Sale. Later that afternoon Brink's Brangus will host their annual pre-sale Cocktail party followed by Dinner and then the Brink's Brangus Annual Production Sale. Motel Reservations should be made early.

A detailed list of events and time schedule will be listed in May TBBA BULLETIN.

The first National Jr. Brangus Heifer Show will be held July 21 & 22 at Sulphur Springs, Texas. Rules for the Show are as follows:

1. Heifers entered in the National Jr. Brangus Heifer Show must be registered by the IBBA, 9600 Tioga Dr., San Antonio, Texas — Registration papers will be checked Friday July 21, and heifers are subject to culling by appropriate committees.

2. Entries for Class 1 and 2 must be in youth's ownership prior to May 15, 1978. Older Heifers, entered in Classes 3 through 5 must have been owned by April 1, 1978.

3. Only youth who have not completed high school prior to the 1977/1978 school year, are eligible to enter and show.

4. Class 10 — Pair of Females — No separate entry fee required but class must be entered. Any 2 heifers owned and entered in the National Jr. Brangus Heifer Show — Shown by one individual Jr. Exhibitor may be shown.

The Circle Seven Commercial Brangus Bull.

Why do you think so many cowmen have been buying him?

Like all other types of businessmen, it is necessary that a cowman make daily decisions affecting his operation. He must project his needs for the future and select the methods of management that will keep him in the black. A good cowman plans and chooses carefully. He knows the importance of getting a return on every investment he makes. He can't take chances; not on the nutrition of his cattle, and not on his bulls.

Circle Seven takes out the guess work involved with buying commercial bulls. Each and every bull produced

by Circle Seven is performance tested. The data is assembled for the buyer and each bull that leaves the ranch is guaranteed to be a sound breeder.

More and more cattlemen are switching to Circle Seven bred Brangus bulls. The fact is, last year more than 400 head went into commercial herds in 5 states. These cattlemen not only like the quality they like the price.

Quality in Quantity at Competitive Prices.

been donated by Ford Brothers Brangus, Stroud.

The Association's 14th Annual Production Sale was set for September 9, 1978. The sale will be held at the Pauls Valley Sale Barn and Syler Sales Management, Burton, Texas, was selected to manage the sale.

Officers were elected. Re-elected President was Ray Powell, Hollis, and Lynn Simpson, Dibble, was re-elected Vice-President. Thomas Domic, Oklahoma City, is the Association's new Secretary-Treasurer.

Plans were finalized for the construction of barn facilities and the organization's participation in the Bull Test Program at Oklahoma State University, Stillwater.

1978 International Brangus Show

Brangus from some of the top herds in the country were out in force on Feb. 23rd for the judging of the 1978 International Brangus Show held in conjunction with the Houston Livestock Show and Rodeo. Herman Purdy, Alexandria, Penn. judged the 100-head event, considered one of the breed's most prestigious shows.

The day was highlighted when bulls that were full brothers captured grand and reserve grand champion bull honors. DMA Chap 533, exhibited by Diamond M Acres, Simonton, Texas; Granada Brangus, Bryan, Texas; and Willow Springs Ranch, Burton, Texas was named grand champion. The March 1975 son of DMA Champ 300 was also senior champion and winner of the two-year-old bull class. The reserve grand champion and bull calf champion was DMA Champ 700 shown by Diamond M Acres. Also sired by DMA Champ 800 and out of WSR Mary Lou 1, this young bull placed first in the early junior bull calf class over nine other entries.

The female championships were divided by Choya Ranches, Camp Wood, Texas and Brink's Brangus, Kerrville, Texas. WSR Miss PW 120-10, shown by Choya, was the grand champion Brangus female. This daughter of the 1974 Futurity

champion bull, PW Oscar 120, was also junior champion female and winner of the early junior yearling heifer class. Brink's Brangus exhibited the reserve grand champion female, Miss BB General 193Y. The daughter of Brink's Carson 351/0 (General), a junior heifer calf, was in the largest class of the show, winning a blue ribbon over 11 other heifers.

BRANGUS The Ideal Mother.

There's just one reason you need Brangus cows working for you—PROFIT!

Brangus is America's number one brood cow, because she consistently produces calves that are in great demand by stockers, feeders, packers, and consumers. And this means consistent profit for you!

Brangus females mature early, calving as 2-year-olds with no problems, and they give a 20% to 40% longer productive life. They are excellent milk producers, and their calves gain faster, wean heavier, and do better than calves of other breeds. With Brangus females, you eliminate sunburned teats, sore eyes, and other disease and pest-related problems.

Only animals with a 3/8 Brahman-5/8 Angus heritage are true Brangus, for only this combination gives animals with the hardiness, adaptability, and high production that is consistently characteristic of the Brangus breed. If you want PROFIT, you need BRANGUS!

For information about scheduled events, upcoming sales, and sale catalogs, call collect: Lauren Mayhew, Secretary, Texas Brangus Breeders Association, P.O. Box 570, Sealy, Texas 77474. Tel. (713) 885-3364.

Wichita Falls, Texas — The Second Annual J. W. Hastings Ranch Brangus Production Sale will be held Saturday, April 29, 1978. Sale time is 1:00 p.m. at the ranch located seven miles South of Windthorst, Texas.

The sale will feature Brangus females sired by or bred to Tom Tom, Tom Tom 38/3, Georgie Boy 32/2, Black Duke 3/8 and Tom Tom 68/2, and one-quarter semen interest and two breeding interests in the 100% Certified Meat Sire, JWH Black Duke 5/3. An original bronze of JWH Black Duke 5/3 by Jack Stevens will be given to the purchaser of the bull on sale day.

Also selling will be 25 herd sire prospects, 8 show prospect heifers to Brazos Valley Ranch, Simonton, and one to Sundown Ranch. The top bred heifer went to Clayton & Modesta Williams, Jr., Fort Stockton, for \$3,000; with others to Stockade Ranch, Paige for \$2,000; two for \$1,900 each to Harold Brelford's Meadow Oaks Ranch, Houston, and Stanley; one to Rojak Ranch, Mt. Vernon for \$1,800; and one to Brelford's Meadow Oaks Ranch for \$1,600.

Each buyer received a custom designed Brangus weatherstone. Volume buyers were Sundown Ranch whose owners, Pete and Rosie Griffin received the original Brangus bull portrait on leather done by Kathy McCrairie; J.W. Hastings Ranch; Brazos Valley Ranch, and Escoba Cattle Co.

Biologists have identified one million species of animals ranging from single-cell amoebas to whales. Some scientists believe there may be as many as ten million species of animals on earth.

Sponsored By
De Soto Cattlemen's Association
1200 Cattle Grouped and Graded by LSU Specialists
To Be Held At
Mansfield Livestock Auction
MANSFIELD, LOUISIANA
MONDAY, MAY 29, 1978 - 1 P.M.
An Estimate of Breeds And Weights:

Breed	400-500 lbs. Steers-Heifers	500-650 lbs. S H	Over 650 lbs. S H	Total S H
Hereford	70 20	250 25	85 15	405 60
Angus	20 20	75 10	20 50	115 80
Holstein				
Brangus-Braford	15 60	10 60	85 15	120 25
Other Crosses	30 30	100 40	75 25	205 95

Most of the cattle were weaned last fall and have grazed ryegrass/wheat past-
ure during the winter. They will also be some calves and lighter color
cattle for summer grazing.
The majority of these cattle were vaccinated for blackleg and leptos, poured
for grub and wormed before going on pasture. These cattle are the type and
quality that make economical gains and grade at acceptable weights.
